— STOVES & FIRES —

## JOB DESCRIPTION

Job Title: HETAS Installation Engineer

Reporting to: Directors

Contract Length: Full Time

### **Summary of Main Duties and Responsibilities:**

We are looking for a friendly, competent, organised and hardworking person to join our busy team. You will offer key support to the installation team leader and ensure that the installations are kept to an excellent standard.

You must be able to:

- Understand a customer's requirements and aspirations.
- Follow instruction but also be able to work under your own initiative.
- Work to building regulations and our customers high level of expectation.

As you will be mainly working in customers' homes you need to be presentable with good customer facing skills.

### **About Us:**

Ignite Stoves & Fireplaces are Lincolnshire's leading supplier and installers of some of the finest wood burning, multi fuel and gas appliances. We operate throughout the whole of Lincolnshire with quality always at the forefront of what we do.

### **Essential Skills/Knowledge/Experience**

- A sound knowledge of the wood and/or gas stove and fireplace installation including flues and chimneys.
- Have additional building skills to add to the team.
- A positive and flexible attitude to work.

- A practical mind
- Natural customer interaction skills
- Exceptional attention to detail
- Exceptional communicator both written and verbal
- Driving License

**What we offer:**

- Competitive remuneration based on ability and experience.
- Company pension scheme and holiday entitlement.
- An opportunity to develop and further your career

Please send your C.V. and a short letter about yourself and interests to let us know if you're potentially the right person for the job.

Applications should be sent to [jobs@ignitestoves.com](mailto:jobs@ignitestoves.com)
